**Opening Speech:** Slawomir Tokarski

Clusters can provide solutions to today's problems.

Changing economies.

Changing attitudes.

Changing climate.

Some changes have been negative!

...and change!

...and aim to plan!

We provide a Bridge!

Canada is setting up super-clusters!

And... Bridge!

The European elections are approaching.

Digital companies and more AI startups than anywhere else!

Sustainable products.

Markku Markkula: “Shaping our future through innovation ecosystems”

Published by Andrea Ingusci on 14 May 2019

Very inspiring speech by First Vice-President of the Committee of the Regions Markku Markkula on how clusters are crucial for Europe's regional development.

“As we don’t have a planet B, Sustainable Development Growth (#SDG) has to become an issue all clusters should be concerned with.”

Regional development is strongly related to increasing European industrial competitiveness through SDG-driven actions. It’s also a human and a social challenge.
Thank you!
